

rock paper scissors challenges

Before we get started

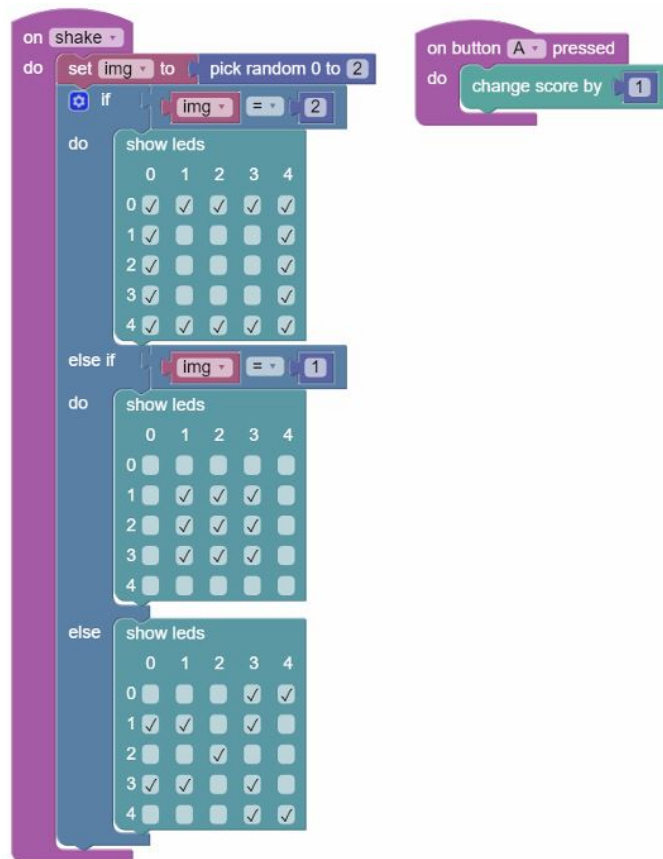

Complete the following **guided activity**

(<https://www.microbit.co.uk/blocks/lessons/rock-paper-scissors/activity>),
your code should look like this:

Challenge 1

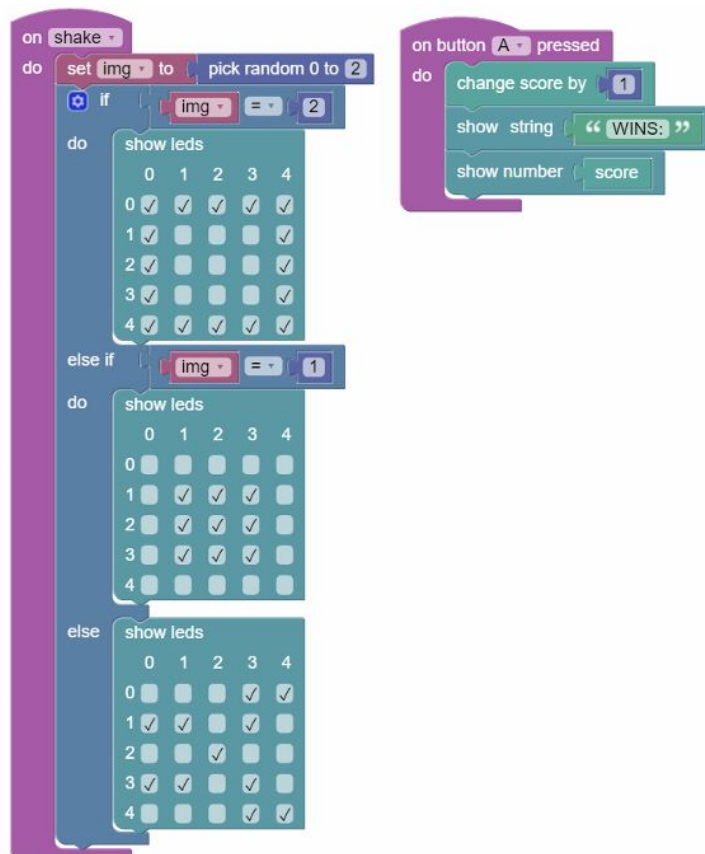

When the A button is pressed, increment the score by 1. You can select Game drawer then add change score by 1.

- Click *run* to execute your code in the simulator

Challenge 2

After incrementing the score, display the total number of wins you have.

- Run and compile the code to see if it works as expected.

Challenge 3

You have successfully tracked and displayed the number of wins on the BBC micro:bit! However, what about losses? Use the Game drawer to change score by -1 when button **B** is pressed.

- Run and compile the code to see if it works as expected.
